

ISTU[®]-Integrated Standard Transportation Unit

ISTU-technical specification

- Self-guided vehicle
- Total length 16400 mm
- Width 2737 mm
- Weight ca. 11,0 t
- Axle load 22,5 t
- Height of loading surface up 1020 mm
- Max loading 34,0 t
- Standard gauge of 1435 mm
- Wheel diameter 760 mm
- Loading and unloading by a typical loading equipment
- Max. speed 50 km/h
- Average speed with loading ca. 10 km/h
- Diesel-Generator set 2
- IPMOT drive 2

ISTU-load specification

- 1 container class A, B or C, of a gross weight of 34 t or
- 1 swap body class A, of a gross weight of 34 t or
- 1 swap body class C of a gross weight of 16 t or
- 2 swap bodies class C each of a gross weight of 16 t.

IPMOT

**Integrated Propulsion Motor Unit
fully integrated PLUG and PLAY
drive solution**
